Pain is no laughing matter.

If you've got it, you want rid of it as quickly as possible. The faster the better.

With a significant proportion of the British population suffering from medium to acute pain on a daily basis, that's a lot of people seeking an effective solution.

And it's only going to get worse.

Government officials predict that the number of sufferers from back pain, arthritis, muscle and joint discomfort and sports injuries is set to increase as the general population ages.

Add to that another five million suffering from multiple sclerosis and other nervous system related diseases -the numbers become frightening.

NEW MAGNETOSTIMULATION TECHNOLOGY

Thankfully Centre4health is here to help with the introduction of the Viofor JPS System.

Developed over the past fifteen years in Europe by the world's leading scientific experts in magneto-stimulation, it is a breakthrough in the treatment of pain and helps reverse the symptoms of many major conditions.

It works by utilising a slow-changing, low induction magnetic field that is tuned to work with the body's natural resonating frequencies. Simply put, this means it speeds up the natural healing process without forcing the body into recovery.

Conventional electro magnetic therapy systems subject the body to prolonged periods of high intensity electro magnetic waves, which, while effective, can cause trauma and can be limited in their use.

In contrast, the Viofor JPS System with its electro magneto-stimulation is so effective that it is widely used within the health systems of many European countries, including Germany and France.

A MORE EFFECTIVE METHOD TO REDUCE PAIN

Certified by the EU as medical apparatus, our product has undergone stringent clinical and scientific research, which has demonstrated that this is indeed a revolutionary breakthrough in the treatment of pain and the reversal of many major conditions.

Those who suffer from arthritis or bone and joint degeneration benefit from pain relief and improved circulation

Sports injuries are healed more quickly by accelerating the rebuilding of cells, re-hydrating and oxygenation. This in turn reduces pain and discomfort.

What's more, tests show that in the treatment of multiple sclerosis and other problems of the nervous system, significant improvements are made by users.

These include reduced fatigue, decreased spasticity, improved mobility, better bladder control and reduced pain.

Doctors in Europe agree that this is a remarkable system which, combined with traditional treatments, will change the future of remedial therapy.

Introducing the Classic System for Home Use

The Classic System provides all the benefits of magneto-stimulation therapy in its easiest to use format. It is suitable for home and professional use, The controls are user-friendly and easy to operate. All the equipment can be packed in a bag for convenient transportation.

The Classic system contains -

- ✓ Classic Control Unit
- ✓ Small Mat
- ✓ Point Applicator
- ✓ Strap-on Applicator
- ✓ Mattress
- ✓ Remote Control
- ✓ Transport Bag

Find out more about Pain Relief at home by contacting Susanna Priest

Susanna Priest
EMS Pain Relief Sanctuary
Suite 2, 2 Market Street
Nailsworth, Glos, GL6 0BX
